

COMPREHENSIVE LOGO DESIGN PACKAGE

OVERVIEW

With this package, I will take your vague ideas and turn them into a unique, eye-catching, professional logo that will accurately represent your business. This package is best for people who are looking for help with figuring out their vision for their logo. For this reason it includes a more comprehensive prep sheet to help organize your thoughts as well as 3 different custom preliminary designs. And to ensure maximum versatility across all platforms, a secondary logo and brand mark will be included.
